Social Glue

Collage Festival Schiedam

SEPTEMBER 4 - OCTOBER 5 2025 | Art Centre Schiedam

Visual artists and curators Nancy Hoogstad and Juliette Pestel are organizing the Social Glue Collage Festival in the context of the 750th anniversary of the city of Schiedam. We are working together with artists of KunstWerkt and of the international collective The Collage Club. Both the artists of The Collage Club and of KunstWerkt are excited to work together with the people of Schiedam and visitors.

The title of the festival, Social Glue, refers to the connection we are looking for during the festival. In a collage, you literally glue the source material together; separate parts connected form a new image, a new story. By connecting to another person, we get to know each other, discover together, learn and work together. Although we can be very different, we are connected to each other during this festival through analogue collage.

Schiedam is the starting point for this collage festival. The past, present and future of Schiedam is investigated. The collages made for the exhibitions in the festival are a sum of research into form, concept, feelings, ideas, material and - in most cases - glue for each artist.

During the festival we show collages and collage based works from participating artists; in the main exhibition at KunstWerkt exhibition space and in two satellite exhibitions at I-Punt and Jenevermuseum. The works show great diversity in collage and assemblage, it's inspiring to see how wide the definition of collage can be stretched. There will be workshops by The Collage Club artists, collage meet-ups, a lecture, an artist talk, a collage materials market and an auction of donated collages for charities in Schiedam.

Connected layers, connected people, individuality becoming a whole, just as we imagined when we started organizing the festival!

Sunday September 7, 15.30 hrs

Festival opening with music by Job & De Leeuw.

Workshops, €7.50*

All materials will be provided. Check the Eventbrite link on our site and Instagram for more info about the workshops and to buy your workshop ticket.
